PROFESSIONAL SUMMARY

IT Strategy Consultant at Nolan, Norton, the CIO advisory company in KPMG network.

Passionate about cutting-edge technologies and digital strategies. Problem solving skills and entrepreneurial initiatives, developed through my background experiences.

PROFESSIONAL EXPERIENCE

KPMG - CIO ADVISORY

MILAN, ITALY

IT Strategy Consultant

SEP. 2022 -

- Design of the offshoring strategy of the IT delivery model for a large Italian bank. Creation of the top-down budget and the framework to allow the offshoring of services. Evaluate potential benefits and risk associated.
- IT Due Diligence and IT Assessment in the financial services sector. Assessment of the IT department (Nolan, Norton Methodology), creating ad-hoc IRL and attending experts' sessions.
- Design of a Cloud Strategy. Supported the client in the Cloud migration, from the strategy design to the RFP phase.
- IT Governance. Led the development of a KPI dashboard (PowerBi) for monitoring the IT department; interview with IT managers and creation of a list of KPIs (both operative and executive level) to be represented.
- IT Strategy. Supported an Italian financial entity in the assessment of the IT department and the realization of the IT strategic planning.

ICIM SPA

MILAN, ITALY

Analyst intern

JAN. 2022 - MAY 2022

- Led the team in a data strategy project, aimed at designing a solution to gather and store information in a structured data model.
- Creation of a standard process of data gathering and standard excel template to be filled.
- Creation of a data model using PowerBi, allowing the data visualization for the business intelligence process.

CARTOTECNICA SANTA CATERINA

LUCCA, ITALY

Transformation analyst

APR 2018 - SEP. 2018

- Supported the process of digitization by providing the functional analysis for the implementation of the ERP.
